

LED Lighting – Case Study

Penske Crevier BMW

Santa Ana, CA

Description of Work:

Energy Retrofit Co. helped Penske Auto Group save by upgrading 240 fixtures going from 1000Watt Metal Halide to the new **202Watt GE Evolve LED Fixtures** in the Santa Ana auto mall. The project was completed in just under 2 weeks, and the lighting quality was dramatically improved.

Penske Auto Group received a \$50,000 rebate from Southern California Edison for this project, which resulted in just under a **three year payback period**.
