

# FLU Lighting – Case Study

## Anaheim Convention Center

Anaheim, CA

### Description of Work:

Energy Retrofit Co. helped Anaheim Convention Center save by upgrading over 2000 fixtures from T12 Fluorescent to T8 Fluorescent saving an estimated \$360,347 in energy cost per year.

The City of Anaheim paid for this \$750,000 project through a combination of U.S. Department of Energy Stimulus funding and local utility company rebates.
