

FLU Lighting – Case Study

Orton Development

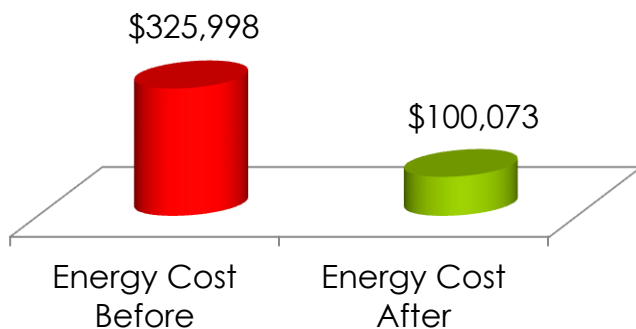

AFTER

2525 Shadeland Ave, Indianapolis IN

Description of Work:

Energy Retrofit Co. helped Orton Development utilize the Energizing Indiana Prescriptive Rebate Program to significantly reduce the material costs when it upgraded over 2300 outdated 400W Metal Halide fixtures with the new T5 Fluorescent High Bay fixtures. The project will reduce annual energy cost by \$225,000 per year, and dramatically improved the lighting.
