

# FLU Lighting – Case Study

## The Berrics

Los Angeles , CA

### Description of Work:

Energy Retrofit Co. helped the Berrics Skate Park in Los Angeles upgrade outdated 400W Metal Halide fixtures with the new T5 Fluorescent High Bay fixtures saving over 50% in energy cost, and dramatically improving the lighting.

Southern California Edison rebates paid for approximately 58% of the cost to upgrade, and the project was completed in less than 3 days.
