

LED Lighting – Case Study

ARCO/ AMPM

1333 W. Merced Avenue, West Covina CA 91790

Description of Work:

Energy Retrofit Co. helped ARCO AMPM Station upgrade **400 Watt HID Fixtures with the new 140W LED Canopy Fixtures** saving 70% in energy cost. The new LED's will last an **estimated 100,000 hrs or approximately 20 years** based on the current operation.

The lighting quality was dramatically improved and the new LED lamps provide a zero-maintenance solution for the owner.
