

LED Lighting – Case Study

Antelope Valley School District

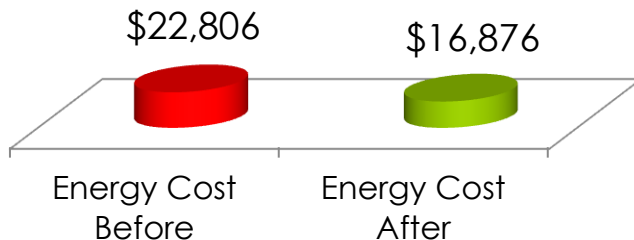

Bakersfield , CA

Description of Work:

Energy Retrofit Co. helped Antelope Valley School District upgrade **400 Watt HID Fixtures with the new 120W LED Canopy Fixtures** saving over 70% in energy cost. The new LED's will last an **estimated 100,000 hrs or approximately 20 years** based on the current operation.

The lighting quality was dramatically improved and the new LED lamps provide a zero-maintenance solution for the staff at the school district.
