

# Induction Lighting – Case Study

AM/PM

9472 Katella Avenue, Anaheim CA

## Description of Work:

AM/PM in Anaheim, CA replaced **320W Watt Metal Halide lamps with the new 100W Induction Lamps** saving over 60% in energy cost. The new Induction Lamps will last an estimated **20 years** based on their annual operation

AM/PM received about 40% rebate from Southern California Edison for this project, and the energy savings paid for this project in less than 1 year.
