

Induction Lighting – Case Study

Chevron

6490 Edinger Ave, Huntington Beach CA

Description of Work:

Chevron Gas in Huntington Beach, CA replaced **320W Watt Metal Halide lamps with the new 120W Induction Lamps** saving over 60% in energy cost. The new Induction Lamps will last an estimated 20 years based on their annual operation

Chevron received about 40% rebate from Southern California Edison for this project, and the energy savings paid for this project in less than 1 year.
