

LED Lighting – Case Study

Lexus San Diego

Kearny Mesa, CA

Description of Work:

Energy Retrofit Co. helped Lexus of San Diego, owned by Penske Corp. save by upgrading 1000Watt Metal Halide to the new **GE Evolve LED Fixtures**. The retrofit was completed in 2 days, and the lighting quality was dramatically improved.

Lexus reduced their energy usage by 75% resulting in over **\$21,204.02 per year** in savings, and a 2.1 year payback.
