

LED Lighting – Case Study

Wyndham

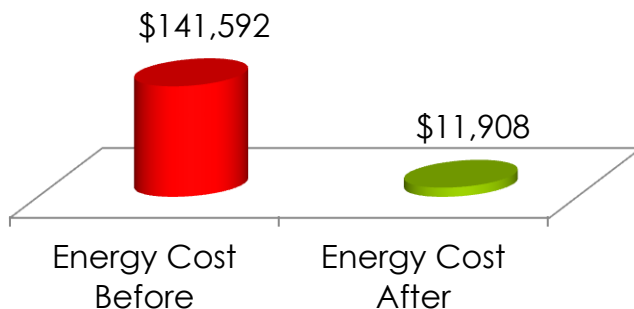

Irvine , CA

Description of Work:

Energy Retrofit Co. helped Wyndham Hotels upgrade over **700 Fixtures with the new LED Downlight 6" Can Retrofit** saving over 90% in lighting cost. The new LED's will last an average of 10 times longer than their existing halogen and incandescent lamps.

The lighting quality was dramatically improved and the new LED lamps provide a zero-maintenance solution for the staff at the hotel.
