

LED Lighting – Case Study

Freeway Honda

Santa Ana, CA

Description of Work:

Energy Retrofit Co. helped Freeway Honda save by upgrading 400Watt Metal Halide to the new 117W LED High Bay Fixtures in the service bays.

Freeway Honda was looking for improved lighting for their service technicians, and the new LED delivered the desired results. Honda reduced their energy usage by 75% resulting in over **\$8,186 per year** in savings
