

# LED Lighting – Case Study

## Paperworks Industries

6 Lamp T8 LED - 96 Watts

## Description of Work:

Energy Retrofit Co. helped the Paperworks Manufacturing plant save by upgrading existing T8 Fluorescent high bays to the new LED T8 Tubes with occupancy sensors.

The new LED T8 Tubes last twice as long as the T8 lamps, and consume over **50% less energy** than the previous F32T8 lamps, resulting in over **\$142,000 per year in savings**.
