

LED Lighting – Case Study

Description of Work:

Energy Retrofit Co. helped GGMC retrofit 10 garages across New York State . On average the energy cost for each garage was reduced by 80%, and light levels have increased dramatically.

Overall GGMC Parking has reduced their lighting energy usage by **\$84,596 per year**, and will save more by the elimination of lighting maintenance for the next 10 years based on 24/7 operation.

GGMC Parking

Before – 150W HPS

After – 37W LED
