

LED Lighting – Case Study

Newport Beach Lexus

Newport Beach, CA

Description of Work:

Energy Retrofit Co. helped Newport Beach Lexus save by upgrading 1000Watt Metal Halide to the new *GE Evolve LED Fixtures* on the sales lot. The 400W HID's were upgraded to *LED High Bay* in the service bays, and the parking structure was also upgraded to LED.

Newport Beach Lexus reduced their energy usage by 75% resulting in over **\$132,546 per year** in savings, and a **2.3 year payback**.
